ABOUT ME

Hello, my name is Amr Saher and I am a 16-year-old software developer with a passion for programming. I started learning programming at the age of 12 and since then I have gained extensive experience in various programming languages such as HTML, CSS, JavaScript, Vue.js, Nuxt.js, PHP, MySQL, Laravel, Python, Django, PyQt5, and more. Currently, I am learning C# and ASP.net and plan to learn TypeScript in the near future. Apart from programming, I am also interested in fitness and spend time in the gym regularly. When I am not coding or working out, I enjoy playing video games. With my dedication and passion for software development, I am excited to take on new challenges and grow as a developer.
